Directors' Review

The Board of Directors of Sindh Modaraba Management Limited, Management Company of Sindh Modaraba is pleased to present the un-audited Financial Statements of Sindh Modaraba for the first guarter of FY-2024 ended September 30, 2023.

Operating Results

During the first quarter of FY-2024, Modaraba earned a profit before tax of Rs. 75.76 Million as compared to a profit before tax of Rs. 43.97 Million in the same quarter last year. The profit after tax of the Modaraba also increased by Rs. 22.57 million to Rs. 53.78 Million. The earnings from diminishing Musharaka has increased by Rs. 19.85 million to Rs. 54.70 million. Further, the bank profit also increased by Rs. 18.38 Million due to more cautious treasury management and improved weighted average rate of return on bank deposits, which impacted the increase in earnings per certificate from Re. 0.69 to Rs. 1.20 per certificate.

Future Prospects

The IMF expects Pakistan's economy to perform better in the current and next fiscal years compared to other multilateral agencies' projections despite the macroeconomic challenges faced by us. The International Monetary Fund's (IMF) World Economic Outlook for October, released and forecasts a growth of 2.5% for the country's economy in the current year, doubling to 5% in the next fiscal year.

Inflation has remained on the higher side due to administered increase in prices of energy, petroleum products and currency devaluation. However, due to current economy management, the rupee has recovered to Rs. 281 to a dollar in inter-bank market from the peak of Rs. 307, which also impacted recent decrease in energy prices

It is expected that inflation may slow down for 2QFY24 before starting to drop sharply from Jan-24 onwards. Moreover, it is estimated that real interest rate may also become positive in coming days. While there are risks of rising oil prices and pressure on the PKR due to external financing gaps, expectations for oil prices to normalize in 2HFY24 and a low trade deficit on account of subdued demand and better agricultural output is likely to keep the inflation in check.

In light of the above the management will continue its strategy for cautious lending in uncertain economic conditions, the management is focusing on the steady growth in the financing portfolio through concentration in low risk sectors. Moreover, timely recovery from the customers against the existing facilities remains the key area of focus to maintain the returns yield of the portfolio.

Acknowledgment

On behalf of the Board of Directors, I would like to thank the Sponsors, the Regulators and our Shariah Advisor for their guidance and support. We would also like to acknowledge the continued patronage of our clients and put on record the dedication and hard work of employees of the Modaraba.

On Behalf of the Board

12. CONTINGENCIES AND COMMITMENTS

12.1 CONTINGENCIES

13.

The Modaraba received a letter from the Assistant Commissioner - Sindh Revenue Board (SRB), wherein, it is mentioned that during scrutiny of the financial statements of the Modaraba from July-2014 to March 2018 he came to know that the Modaraba is engaged in providing / rendering taxable services which falls under the Second Schedule of Sindh Sales Tax on Services Act, 2011 (the Act), and the sales tax on such services mainly ljarah/lease rentals aggregates to Rs. 27.67 million which is outstanding. Such letters were also received by some other Modarabas and collectively, a petition against the same was filed through a common legal counsel in the Honorable High Court of Sindh challenging levy of Services Sales Tax on ljarah/lease financing transactions. The Honorable High Court has granted a stay stating that no adverse order in respect of the proposed treatment shall be made against the Petitioners.

The management of the Modaraba based on discussions with its legal counsel is of the view that the Sindh Sales Tax is not applicable on Ijarah transactions and expect that the matter will be decided in Modarabas' favour. Accordingly, no liability in respect of the above has been recognized in these financial statements.

16. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Modaraba is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' requires the Modaraba to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (level 2); and
- inputs for the assets or liability that are not based on observable market data (i.e., unobservable inputs) (level 3).

As at the balance sheet date, there were no financial instruments which were measured at fair values in the financial statements.
